

RCR-40 MK1, MK2 & MKIV Kit

3 versions—Basic, Standard Roller & Comprehensive Roller Kits

From \$39,995

With the RCR-40 we have produced the most authentic GT40 replica body in the market today while using the latest engineering and production techniques to ensure the best possible performance and quality for your dollar. Designed to be a true light weight performance Supercar, fully spec'd & designed for Australian road use and extensively tuned for class leading track performance.

RCR-40 Advantages:

- TIG Welded Aluminium Monocoque Chassis - featuring 9 access hatches, replaceable suspension mounts, seatbelt mounts, replaceable front & rear chassis extensions, cnc billet rear brace. No substandard time consuming pop rivet paneling required.
- Bespoke suspension design: cnc billet alloy A arms & uprights, standard brakes are large 348mm rotors & Brembo calipers.
- Authentic body shape and dash as it was taken directly from an original GT40 that we still have access to.
- Body consists of high quality vinylester resin gelcoat panels and original style inner panels for improved durability, rigidity and protection from water, dirt and debris. Inner panels are epoxy bonded to the outer panels. Even our roof section is double skinned for enhanced strength and improved appearance. Precision stainless alignment pins ensures perfect operation.
- Accommodates a large range of engine & transaxle choices. Engine: Ford Windsor, Ford Modular 4.6 & current 5.0lt, Gen 3 & Gen 4 Holden/Chev engines from 5.7lt - 7.0lt and more. Transaxle: ZF, Porsche, Audi, Ricardo, Albins.
- Superior safety with breakaway front crumple zone, high rigidity 6mm wall thickness cockpit safety cell, rigid housings to fully enclose and protect the twin fuel tanks, 12,235Nm degree Torsional stiffness for bare chassis(no cage, engine, body etc)
- Industry leading quality parts: Polycarb(Lexan) curved windows & shaped covers, CNC cut and TIG welded door hinges, engine mounts etc. Billet CNC roller fuel caps with separate lockable internal caps, classic analog styled electronic custom gauges.
- Superior weight distribution as the engine can be moved further forward and sit lower in the chassis than other replica brands
- Intelligent self locating engine mount plates allow for flexibility and speed of installation. Includes additional mid drivetrain mounts.
- Build time is significantly reduced as every facet of the design has been optimized for quick and easy assembly. Full colour 200+ page build manual & DVD provided. We have owners that have built their cars in as little as 5 months part time.
- Extensive testing and compliance work has been performed for street registration in Australia: Chassis Torsion and Beam, Body Panels, Suspension, Handling, Braking, Seat Belt Mounts, Bump Steer etc plus certified parts and accessories. Please contact us for recommended engineers in your state.

RCR-40 Basic Kit	RCR-40 Standard Roller Kit	RCR-40 Comprehensive Roller Kit
<p>CHASSIS</p> <ul style="list-style-type: none"> ● Aluminium Monocoque TIG Welded Chassis ● Integrated enclosures to protect and secure fuel tanks ● Billet CNC Aluminium Rear Chassis Brace with mounting brackets ● Aluminium Replaceable Front Body Structure ● Aluminium Replaceable Rear Body Structure ● 9 Removable Chassis Inspection Panels with ss button head fasteners ● Removable Aluminium Rear Firewall with ss button head fasteners ● Adjustable Radius Rod Supports for Rear Chassis Extension ● Pair Support Ribs for Rear Chassis Extension ● Integrated Radiator Mounts ● Integrated Central Tunnel: Coolant Tubes, AC Hoses, Brake Lines, Wiring ● No additional panelling required for chassis ● Integrated Brake Line Bulkhead Mount Points ● Rear chassis compartments for battery, fuel system, dry sump tank etc ● Integrated Lower Seat Belt and Harness Belt Mounts ● Rear Window Opening in Rear Firewall <p>SUSPENSION</p> <ul style="list-style-type: none"> ● CNC Billet Aluminium Front Suspension Uprights ● CNC Billet Aluminium Rear Suspension Uprights ● CNC Billet Aluminium Front Upper Control Arms ● CNC Billet Aluminium Front Lower Control Arms ● CNC Billet Aluminium Lower Rear Control Arms ● D.O.M Tubular Rear Suspension Radius Rod Links ● Front and Rear Suspension Mounting Points <p>BODY</p> <ul style="list-style-type: none"> ● Superior Vinylester Resin Fibreglass Panels ● Nose with black gelcoat inner panel structure ● Tail with black gelcoat inner panel structure ● Roof with complete black gelcoat inner panel ● Drivers and Passenger Doors with black gelcoat inner panel ● Anti-Intrusion Bars for doors ● Dash ● Rocker Panels (Lower Sills) ● Nostril Panel - Single or Twin Nostril ● Body Panels are completely removable from Chassis ● Rocker Panels have integrated mounting ledges and sit above floor level so are protected from lower damage. 	<p>Assembled as Roller and includes everything in the Basic kit plus</p> <p>BRAKES</p> <ul style="list-style-type: none"> ● Brembo Calipers with 348mm vented & slotted rotors front and rear ● Stainless Steel Hard Lines, pre-bent & terminated. RCR-40 - Options

Part No.	Component
4OPT01	Engine Accessory Pulley Kit to suit LS engine family. Includes Custom Pulley and alloy mount to replace power steering pump, Auto Tensioner Pulley, Idler Pulley, 140AMP Alternator, Alternator Front Bracket, Alternator Rear Bracket, Alternator Connector, Main Belt, AC Belt and Mounting Hardware
4OPT02	Electronics Kit for LS Engine. Includes ECU, GM Engine Wiring Loom, Engine Fuse Box, Pair of O2 sensors with mounting bungs, high performance MAF sensor and Fly-By-Wire Throttle. Ready to fit to an SL-C.
4OPT03	18" Pin Drive Wheel Upgrade Package. Front size is 18 x 8", rear size 18 x 11". Perfect sizing for new or 2 nd hand race tyres, also available 17" wheels see 4OPT19 & 4OPT20.
4OPT04	Polished Stainless Steel Cross-Over Exhaust. Mufflers are suitable only for race use. Only Ford Windsor currently available.
4OPT05	Front Quick Lift package. Electric hydraulic lift kit for front.
4OPT06	Rear Quick Lift package. (Requires front package)
4OPT07	6-Point Roll Cage with removable front section convert back 4-point, DOM CNC bent, TIG welded, Lap Sash Retractable Seat Belt & Harness mounts.
4OPT08	Black Paint specially formulated for use on Poly Carb. Does not require primer. Used for painting black border on headlight covers, side windows and rear windows as you cannot use primer due to viewing the underneath side of the paint. Can be brushed or rolled on.
4OPT09	Fuel System – anywhere from rubber lines with push on fittings to braided lines with anodised fittings. We recommend purchasing a system that incorporates a surge tank system. Custom AN Fitting for factory GM fuel line. Choice of colours and styles including black braid, silver and/or black, blue/red, chrome etc fittings. You can buy a complete system or any component.
4OPT10	Custom Coolant Header and Overflow tanks. Matching pair of aluminium tanks with all fittings for connection to engine. Supplied with stainless caps. Can be custom manufactured for any engine requirements.
4OPT11	Complete Coolant System with header and overflow tanks. Supplied

	with all flexible connections, clamps etc.
4OPT12	Double Adjustable Shock Upgrade
4OPT13	Front and Rear Adjustable Sway Bars (new adjustable sway bars available soon with pricing)
4OPT14	Roll Cage Swing Out Bars to suit standard cage. (fitting extra)
4OPT15	Reverse Intake Manifold on LS Engine. Remove Intake, make appropriate modifications, re-fit and torque manifold to spec. For a discounted price we can perform the required modifications if parts are removed and sent to the factory.
4OPT16	Water Pump Modifications to LS Engine. Modifications to water pump to make it easy to fit coolant hoses and also to provide a threaded insert to easy fit water temp sender.
4OPT17	Gurney Bubble (\$400 extra for fitting, seamlessly matched gelcoat finish)
4OPT18	Active Exhaust. Computer controlled to automatically measure back pressure, can be switched by throttle position and/or rpm. Led display indicating when system is activating. Can also be manually switched off and full on without regard for exhaust performance. Depends on exhaust system configuration, but you should see more than a 3 x drop in exhaust noise DB when system is active.
4OPT19	Set Pin Drive BRM Wheels (17 "X 8" Front, 17" X 10.5" Rear) with Set of Three Eared Knock-off Spinners, CNC Billet Centre Caps and Set of 20 Lug Nut Pins. Tyres: 2 x Sumitomo HTR Z III 225/40/17, 2 x Sumitomo HTR Z 315/35/17. Fitted and balanced. Also available without tyres.
4OPT20	Set Pin Drive BRM Wheels (17 "X 8" Front, 17" X 10.5" Rear) only. Useful as an extra set for track use etc.
4OPT21	Soft Bag Windscreen Squirter System. Complete with soft reservoir bag with integrated pump, plumbing, fittings and squirters. Suitable to sit behind quick removable interior kick panels or other tight to access areas.
4OPT22	Extra nostril panel. Either single or twin nostril.
4OPT23	Retractable Seat Belts. Correct type for fitment to RCR-40. Registration Compliant.
4OPT24	Widened Rear Wheels (pair)
4OPT25	Widened Rear Guards Fitted

4OPT26	Install Headlights. Cut body holes, bond brackets into body, supply all mounting hardware.
4OPT27	Quick release locking pins for Front Clip. Auxillary front locking pins for front clip. Removable push button operation.
4OPT28	Rear Clip Top Locking Pins and Aluminium Mounting Brackets
4OPT29	Number Plate Lights – LED metal case to mount off rear diffuser. Sold as a pair. Small.
4OPT30	Number Plate Lights – tiny LED lights to recess into body 40mm (W) x 8mm (H) x 20mm (D). Sold as a pair.
4OPT31	Integrated Mounting Tubes for Air Jacks
4OPT32	Multiplexed Electronic Wiring Loom. Fully programmable with self diagnostics. Optional remote control via remote or mobile phone. Allows for advanced electrical services and features.
4OPT33	LS Engine Oil Adaptor. Bolt on black anadised billet CNC aluminium adaptor that provides 2 x Oil Sender fitting connections and engine oil cooler connections.
4OPT34	Door Seal Set – includes soft rubber self adhesive door seal and pinchweld to cover body edge..
4OPT35	Pair of Small Round Clear Side Indicators. Suitable for RCR-40 Front Clip Fitment. Compliant for Street Registration.
4OPT36	High Level Brake Light. LED. Small Non-Obtrusive Clear Lens that enables easy recessed fitment into the body behind the rear window . Compliant for Street Registration
4OPT37	Reverse Light – LED. Small Unobtrusive to mount to rear diffuser. Compliant for Street Registration.
4OPT38	Horns – Pair of Premium Quality Dual Tone Small Horns suitable for fitment in front of RCR-40.
4OPT39	Logo Dash Warning Lights - Check Engine, Oil Warning, Left Indicator, High Beam, Right Indicator, Park Brake, Brake Fail, Ignition. Price each.
4OPT40	Logo Seatbelt Warning Light with Timer. Required for registration compliance.
4OPT41	Traditional Lucas Style Switch Set
4OPT42	Modern Billet Aluminium Switch & Knob Set – Large Start Button, Lift kit

	Buttons, Horn Button, Hazard Button, Ignition Switch, AC Temp Control Knob, AC Fan Speed Knob, Backlit Buttons which can be mounted either flush or raised on supplied bezel.
4OPT43	Brake Fluid Level Switches with connectors (sold as a pair)
4OPT44	3 Point Immobiliser with automatic proximity arm & disarm. Small dongle that is hung off the key ring. Australian Standards Approved.
4OPT45	Wide angle reverse camera kit with installation instructions for SL-C. Screen can be mounted where interior rear vision mirror located. Choice of screen sizes.
4OPT46	Electric Water Pump with Electronic Controller.
4OPT47	Track Race Harness Seat Belts – 5 Point. Can be fitted at the same time as retractable seat belts. Not approved for street use, contact us for approved harnesses for street use.
4OPT48	Front and Rear Tow Hooks - Rated
4OPT49	Carbon Canister & Mounting Bracket
4OPT50	Door Interior Switches to automatically trigger interior lights etc. Require two switches for coverage of both doors.
4OPT51	Gel Cell Battery. High Capacity, minimal self discharge, metal casing. No acid so can be mounted on any angle. Same brand as used by V8 Supercars.
4OPT52	Battery Holder – powdercoated black metal holder with thin rubber lining, separate latching to make battery removal easy. Has twin plane mounting brackets so battery can be mounted horizontal and vertical on both horizontal and vertical surfaces.
4OPT53	Genuine Chev LS Slimline sump for Australian Holden engines. Allows the Holden/Chev engines to be fitted significantly lower in chassis. Not required for imported crate engines as they already have the sump fitted. Supplied with pickup. Requires matched dip stick see 4OPT54.
4OPT54	Genuine Chev Dipstick and Tube to suit Slimline sump. 4OPT53.
4OPT55	Track Shock Upgrade - MCA Custom 3-Way Adjustable Shock Absorbers. Must for any serious track usage.
4OPT56	Insulation Kit – insulation kit for interior and rear of engine bay
4OPT99	Any customisations, including custom engine/transaxle fitment, custom body work
